

2229 Main Street Oversight Committee

Wednesday, November 14, 2018, Meeting Agenda
133 Keyes Rd, 2nd floor meeting room

Please note the new location for the meeting!

7:30 pm meeting begins

1. Review old minutes
2. Review progress for the 1,4-dioxane remediation (currently the pump and dump system is still operating while the full treatment system is being installed, but it does look like the pumping is having a positive effect.)
3. Review progress for the whole site Consent Decree and strategies for encouraging a speedy agreement (currently the agreement has been negotiated and signed off by all the PRPs and participating agencies, but is awaiting a signature from the Department of Justice in Washington DC – the consent decree for the building removal was delayed several years awaiting a similar signature, but was quickly signed once StarMet abandoned the site.)
4. Discuss ways the committee can help encourage Town redevelopment plans for the site (currently the Town has planned to have a redevelopment committee, but no progress has been made about getting this committee together.)
5. Discuss content of 2018 Annual Report
6. Discuss 2019 meeting schedule and Town Meeting.
7. Open the floor to comments & questions.

Adjourn meeting by 9:30pm

The final 2018 2229 Main Street Oversight Committee meeting is currently scheduled at 7:30pm in the 1st Floor Meeting Room, 141 Keyes Road on Tuesday, December 4.
