1. Open Meeting and Attendance (5min)
 - “In accordance with Governor Baker’s executive order permitting virtual meetings during the COVID pandemic, the Concord and Concord-Carlisle Special Education Parent Advisory Council (SEPAC) is conducting this meeting today, January 28, 2021 at 9:30am eastern on the Zoom platform and in accordance with the Town’s Policy Directive and Guidelines issued on April 1, 2020 and amended on May 7. I ask that all SEPAC committee members, town staff, and presenters activate their video and mute their microphone unless they have something to say or are participating in committee dialogue. All committee votes will be taken via roll call. We will start with an attendance roll call. I will announce your name, please reply. For members of the public, please unmute yourself when I’ve opened the meeting to public comment.”
 - Board Roll call
2. Approval of minutes from 1/30/20 special board meeting (not previously approved in error due to COVID-19 meeting cancellation) and 11/19/2020 Board Meeting (5min)
There was a unanimous vote to approve the minutes.
3. Concord Middle School Education Plan update by Dr. Laurie Hunter
 - Sarah Nichol asked for a link to the slide deck to be included here.
 - Dr. Hunter presented a slide deck to the SEPAC Board and attendees.
 - Pat Nelson is a CMSBC co-chair. She is excited to meet with Valerie Fletcher at the IHCD to talk about accessibility and inclusion.
 - After the slide deck, Dr. Hunter opened it up to the SEPAC board and all attendees to offer suggestions and ask questions.
 - Someone asked, how will the building be flexible for new educational developments in the future?
 - Dr. Hunter described that the new CMS building will have 18 “pull-over” rooms for small group meetings, workshop spaces. Each pod is near/off a team common area. This allows students to spread out. The hope is to design the school in a flexible way. While we’re moving toward inclusion, we don’t want to

lose targeted work with students with IEPs. CC district is trying to modify the curriculum to include students with IEPs. We do have a long way to go.

- Parent is glad about what is happening currently. She would like to hear about what is happening in the outdoor spaces. What are the auditory protections you are offering students with sensory needs? Dr. Hunter offered that the standards are very different in 2021 than they used to be. There is a design team of architects and the IHCD will discuss this. Outdoor spaces are coming to the forefront with Covid, so we're focusing on appealing outdoor learning spaces. This is being factored into the site location as well.
- Parent asked about the theater department. Do performing arts really have a good place without an internal teacher that is running the program? Dr. Hunter said that it is being represented by a group of music parents and teachers.
- Parent asked about the cohort model. Dr. Hunter suggested that each team will have a special educator on it, if not more.
- The district heard a lot from you (SEPAC) over the past 2 years, and we've kept that input in mind.
- Dr. Hunter went through the timeline: We're in the thick of the input process while the design team is meeting all the needs and keeping within the budget. They'll have a full report by May. Then, the schematic design will start. There will need to be a special town meeting in the fall. Stay engaged in this process. There is at least 1 Zoom meeting a week.
- Dr. Hunter said that the current timeline shows that in the fall of 2025 the building will be ready for use. We're slowing down to really get all the input that people might have. They've been meeting with many different groups.
- On March 11th at 5 p.m. is a meeting with the Commission on Disabilities-Helen will include info about this in the newsletters and on the website.
- Parent asked how best for the SEPAC to support this work and be involved in the process with the CMSBC? Dr. Hunter suggested that the SEPAC create liaisons for each sub-committee. The Liaison can check agendas and attend CMSBC and report back to the board. Shaina offered that anyone on the call who would like to be a liaison can reach out to SEPAC. Tracey Marano offered to be the rep at these meetings for SEPAC. Becky will post on FB to see if another parent would like to join her in that role.
