

**Climate Action Advisory Board
Director's Update
July 17, 2019**

Grants – We expect to hear back about our Green Communities Grant application as well as a Clean Vehicles application this month. We are also waiting a “mid-2019” notification about the VW Open Solicitation application for an electric school bus. Grant projects in progress include:

- The sustainable landscaping project funded by MAPC. The speaker series will take place in September and October followed by the release of a handbook.
- An EVIP grant for a new electric vehicle. A new Nissan Leaf will be used by the Natural Resources division.

Climate Action and Resilience Plan – The proposals in response to the RFP for the climate action and resilience plan, funded through the MVP Action Grant, were due on Monday. We received 1 proposal which will be evaluated by the review team.

Middle School Building Committee – The committee has met twice and has started the process of selecting an Owner’s Project Manager. The committee will general meet every other Thursday mornings at 7:30am.
