MARVIN WINDOWS AND DOORS

THE MARVIN DIFFERENCE

Every Marvin® window and door begins with a commitment to craftsmanship. While that means using premium materials, like hand-selected, sustainably sourced lumber, it also means relying on an expert workforce and doing things the right way, every time.

We know quality isn't an accident. It's an attribute that takes consistency.

Over the years we've constantly gone the extra mile to ensure quality is built into every product that bears our name. It's the result of tradition, innovation, and expertise united by a responsibility to provide the very best. All because we don't just make windows and doors, we build pieces of people's homes.

ULTIMATE DOUBLE HUNG NEXT GENERATION

A CONTEMPORARY CLASSIC

The Ultimate Double Hung Next Generation Window is an embodiment of our dedication to the trade of creating windows and doors. Influenced by the rich, historical significance of this window style and inspired by innovative design, each feature is thoughtfully added and each detail is carefully considered.

*Window above shown in Designer Black painted interior finish with Matte Black hardware.
Right window shown with White painted interior finish and Satin Chrome hardware.*

INTERIOR PRODUCT FEATURES
DESIGNED TO INSPIRE

- 1
RICH WOOD INTERIOR
Offers beauty and warmth with six standard wood species and ten interior finish options.
- 2
NARROW CHECKRAIL
Provides a sleek aesthetic to maximize daylight opening while maintaining historical accuracy.
- 3
DESIGN VERSATILITY
With an array of simulated divided lite patterns, interior and exterior color options, ten hardware finishes, and hundreds of roundtop sizes.
- 4
EXCLUSIVE AUTOLOCK
Activates when the sashes are closed, locking the window.
- 5
FIRST-RATE ENERGY EFFICIENCY
Meet ENERGY STAR® standards in energy efficiency with multiple glass options for various regions, climates and weather needs.
- 6
SASH BALANCE SYSTEMS
Enable smooth operation even at the largest sizes.

EXTERIOR PRODUCT FEATURES
ENGINEERED FOR PERFORMANCE

- 7
DURABLE EXTERIOR CLADDING
Made with the industry's highest level of certification, AAMA 2605, extruded aluminum and backed by a 20-year warranty against chalking and fading.
- 8
ALUMINUM INTER-LOCK
Eliminates drafts and improves the window's overall structural integrity.
- 9
EXPANSIVE SIZES
Up to 5 feet wide by 10 feet high.
- 10
TRADITIONAL SILL BEVEL
The 14-degree bevel provides optimal water management while maintaining a classic look.
- 11
SUPERIOR WEATHER PERFORMANCE
The window's performance ratings are top in class, including CW-PG30 through CW-PG50 and LC-PG50 on most sizes and IZ3 certified coastal options.

Left window shown in Cherry with Wheat stain and Antique Brass hardware.

Right window shown in Suede aluminum cladding.

A close-up photograph of a window's internal mechanism. It shows a vertical black frame with a horizontal black bar. A silver-colored metal handle is attached to the top of the vertical bar. Below the horizontal bar, there are two small metal components, possibly part of the locking mechanism, mounted on the vertical bar. The background is a plain, light color.

AUTO-LOCKING HARDWARE

The mechanism automatically locks the window when the sashes are closed and is painter-friendly, allowing easy removal and reattachment for painting without components shifting out of alignment.

Both windows shown in Designer Black painted interior finish with Satin Chrome hardware.

A photograph of a window with a dark, possibly black, painted interior finish. The window is tilted upwards. A silver-colored metal handle is attached to the window frame. The handle has a curved, ergonomic shape. The window is set in a dark frame, and the background is a dark, textured surface.

ELEGANCE EVERY DAY

Every aspect of the Ultimate Double Hung Next Generation Window was created with our customers' needs in mind, including Tilt/Wash mode. Allowing easy access to the exterior glass for cleaning and maintenance, Tilt/Wash mode helps keep every view beautiful.

WOOD SPECIES

Every master woodworker knows that one of the most important choices when crafting a new piece is selecting the right wood species for the project. With variations in grain, hardness and warmth, each one of our six standard wood species has something unique to offer.

ALUMINUM CLADDING

BEAUTY THAT DOESN'T FADE

Our cladding offers color flexibility to meet design goals with durability to protect against the elements. Backed by a 20-year warranty, Marvin's impact resistant extruded aluminum cladding is 3x thicker and much stronger than the industry-standard roll-form aluminum. ** Standing out for its extraordinary durability in nineteen spectacular colors, all finished in commercial-grade paint for superior resistance to chalking and fading, our aluminum cladding is designed to last.

INTERIOR FINISH OPTIONS

As part of our commitment to only creating the highest-quality windows and doors, every single piece of wood in each of our made-to-order products is conditioned, sanded, and baked during our integrated conditioning and staining process to provide an elegant and lasting finish. With nine stain and paint options to choose from, our customers can receive stunning, ready-to-install windows and doors without the mess, fumes, or inconvenience.

* Pearlescent Aluminum Cladding

** Some colors may not qualify for the 20-year warranty. For details contact your local dealer. For a copy of the warranty, see MarvinWindows.com
