RE: Advisory Opinion – Concord Mobil Station

Dear Mr. Mahoney,

In Response to your March 10, 2020 request, the Architectural Access Board took up the question as to whether the parking plan proposed in your letter would comply with the applicable sections of 521 CMR. At its regularly scheduled April 6, 2020 meeting, after reviewing your submission as well as all relevant code sections, the Board voted to:

FIND that proposed parking plan complies with 521 CMR 23, so long as the policy described in Mr. Charles Audi's February 10, 2020 letter included in your submission remains in force.

If you have any questions, please do not hesitate to get in touch with me.

Sincerely,

William Joyce
Executive Director
