

Climate Action Advisory Board
Director's Update
December 16, 2020

Sustainable Fleet Policy – The Select Board is in the process of approving an updated policy for town fleets. The town has had a “Fuel-Efficient Vehicle Policy” in place since becoming a Green Community in 2013. One of the implementation steps in the Sustainable Concord plan under the action to [Implement a long-term plan to electrify school and municipal vehicle fleets](#) is to update the policy to be an “electric-first” policy. Kate has worked with town staff and DOER to finalize a draft, which was presented to the Select Board at the December 7th meeting. It is on the December 14th Select Board agenda for approval.

New Fleet EVs – The Town deployed 3 new electric vehicles in the fleet within the last month, all Nissan Leafs. These will be used by the Driver’s Ed program, Minuteman Media Network, and the Facilities division.

Middle School Building Committee – The Middle School Building Committee has resumed meetings after a pause. The first meeting was on December 10th. The committee will be working to complete the feasibility study by March and then begin schematic design. The next meeting of the building committee will be January 7th at 7:30am.
