

**The Concord Public Works Commission**

**Invites you to a**

# **Public Meeting**

**on the**

**Town of Concord  
Cambridge Turnpike Improvement Project**

**Wednesday, December 11, 2013**

**7:20 PM**

**141 Keyes Road**

The purpose of the meeting is to provide a project update on design progress and gather community comments. The primary objectives of the project are to alleviate flooding and improve traffic safety. In addition to improving vehicular travel, the Town has advanced a number of other design elements that incorporate the values and priorities expressed in the Community Questionnaire that was administered in late summer/early fall 2012 and at the October 2012 public meeting. These improvements will complement Concord's character and be sensitive to the environmental and historical resources nearby.

If you have questions about the meeting, would like to be added to the project email list or have a disability or need an accommodation to fully participate in the meeting, please contact Anna Trout of Concord Public Works at 978-318-3206.

The PowerPoint presentation and a design update handout will be posted on CPW's project webpage. For more information about the project, please contact Anna Trout at [atrout@concordma.gov](mailto:atrout@concordma.gov), 978-318-3206 or visit the webpage at [http://www.concordma.gov/pages/ConcordMA\\_PublicWorks/cambridgetpk](http://www.concordma.gov/pages/ConcordMA_PublicWorks/cambridgetpk).
