

Grant LOI - Bob's suggested edits of Nancy's draft 04.19.2022

1. Add 1 sentence at the beginning of this paragraph, so it reads:

The Battle Road Scenic Byway is visited annually by 1.5 million people from around the world. It follows the path of British soldiers on April 19, 1775 during the opening battles of the American Revolution. Increased visitation is expected in 2025 - the 250th anniversary of those events.

2. Alternate language: The project implements recommendations of the Byway's Corridor Management Plan: it improves safety and mobility along the Byway; maintains Byway resources; and develops signage and a smartphone app to enrich visitor experience.

3. Delete

4. Alternate language: Design and construct pedestrian paths along the Byway to link MMNHP trails with adjacent roads and paths.

5. Adopt Nancy's language, but delete "or adjacent to" which seems unnecessary.

6. Design, manufacture, and install interpretive elements, directional signage, and distinctive markers for the Byway's numerous historic sites.

7. Adopt Nancy's language.

8. OK to retain this if there's space in the template.

9. Alternate language: If necessary, the project can be scaled back by reducing historic protection measures and functionality of the smartphone app.

10. Template will only allow one category - we need to choose which one

11. OK.

12. 4,5,6,7 all seem worthy of mention by us.

13. Do we really want MAPC and the Boston MPO mentioned here?

14. Alternate language: The Battle Road Scenic Byway: Improving Safety, Accessibility, and Visitor Experience for the 250th Anniversary of the American Revolution
