## **CPA FUNDED PROJECT STATUS REPORT**

Project Name: Heywood Meadow Restoration Project Number: #9-10

**1. What percentage of the project has been completed?** 80%

**2. Describe work completed to date:**

Approximately 80% of CPA funds have been expended to date to restore the stone wall and to undertake invasives species control. In 2021, we worked with a contractor and volunteers to control invasive species around the Heywood Street bridge to open up views to the Mill Brook.

**3. What key project milestones have been reached?**

Completion of the stone wall reconstruction along Lexington Road. Substantial efforts towards controlling invasives along the edge habitat between the treeline and the meadow, and along Mill Brook.

**4. Expenditure Report:**

**a. What is the date your project began or will begin spending CPA funds?** 11/2011

**b. Briefly account for the amount of CPA funds expended to date:**

Approximately 80% of CPA funds have been expended to date to restore the stone wall and to undertake invasives species control. In 2021, we worked with a contractor and volunteers to control invasive species around the Heywood Street bridge to open up views to the Mill Brook.

**5. Describe remaining work and projected timeline:**

The work that remains to be completed is continued invasive species control. This work is ongoing and I respectfully request the Committee's consideration of extending the project to allow continued invasives removal on this historic meadow. Each year, a contractor undertakes a small section of the meadow to tackle, on the order of \$1,000 to \$1,500 annually. This allows a local contractor to be involved in the project, and has been successful at some invasives control at the meadow

**6. What is the expected project completion date?** December 2023

Name of person who completed this form: Delia Kaye Date: 4/24/22
