

In This Issue

1. Spring 2016 **Aerial Photography** now available as MapsOnline Base Layer
2. New **GIS Webpages** launched as part of new Town Website
3. **Concord's Master Address** on MassGIS

1. Spring 2016 Aerial Photography

Concord's April 2016 aerial imagery is now available as a **Base Layer** choice in MapsOnline. This means you can superimpose any of our other data layers on the imagery as you please. The sample below shows Roads, Parcels and Open Space Land overlaid on the imagery for 2013 and 2016. (Note the new construction area on the 2016 image.)

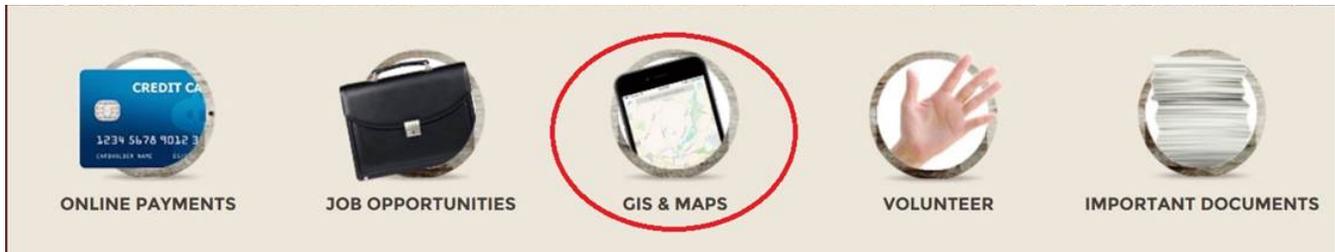

And you can still click on the WebGIS Pictometry tool to view both **straight-overhead** and **oblique** (from North, South, East and West) aerials. Here's that new construction area up close:

2. New GIS Web Pages

The new Concord town website includes a refreshed set of GIS information, along with easy access to our standard Public Webmap. You can get to the new GIS Welcome page from any other page by clicking on the [GIS & MAPS](#) shortcut:

On the left side you will see several additional pages of GIS-related information. Please have a look! For example:

Home > Government > Departments > Information Technology > Geographic Information System Program

Geographic Information System Program

Welcome to Concord's Geographic Information System (GIS)

This site provides access to an **interactive online map** with a wealth of information about what's where in Concord.

Prepared Maps

Click on a map listing to open a full-size PDF. Once the PDF is open, you can print and/or save the map. If you would like to suggest additional maps for this section that are of general interest and usefulness, please email jkern@concordma.gov

Assessing Maps

- [Assessing Market Areas Map FY16 \(11x17...1.5 MB\)](#)
- [Assessor's Tax Map Book FY17 \(24x36...48.3 MB\)](#)

Please note: the Assessor's Tax Map Book contains 122 pages! For information on purchasing a printed version, please visit our [Data Requests](#) page.

Engineering Maps

- [Moratorium Roads 2016 \(11x17...0.7 MB\)](#)

3. Master Address on MassGIS

Since last summer MassGIS has been developing a state-wide Master Address Database. Sources included the Voter Registration List from the Secretary of the Commonwealth, site addresses from municipal departments, and 'anonymized' customer address lists from utilities. Concord GIS has been happy to provide our own fully-developed Master Address Table as an input to this effort.

The new statewide database is now available from MassGIS's [Data Layers](#) webpage.

Other Facilities and Structures

- [Acute Care Hospitals](#)
- [Aqueducts](#)
- [Building Structures \(2-D\)](#) **Updated** - 3/30/2016
- [Colleges and Universities](#)
- [Long Term Care Residences](#)
- [Master Address Data](#) **New!** - 6/15/2016
- [MWRA Water/Sewer Service Areas](#)
- [Police Stations](#)

Concord GIS provides quarterly Master Address updates to MassGIS, to keep their database current.
