Thomas M. Mulcahy
CHIEF OF POLICE

To: Kerry Lafleur, Town Manager

Date: 12/08/2025

The Police Department fully supports the implementation of an enhanced video and electronic access card systems within the Town House.

A combined system of video cameras and electronic access cards enhances safety within municipal buildings. Video cameras deter criminal activity, provide real-time situational awareness, and supply reliable evidence during incident reviews, while access cards ensure that only authorized personnel can access sensitive offices and records. Together, these systems reduce security risks and create clear audit trails. The result is a secure building that better protects employees, residents, and municipal assets.

The Police Department would also recommend upgrades to the lighting around the Town House, especially at the front, side, and rear doors.

The Department endorses these measures as essential steps in modernizing and safeguarding the Town House.

Timothy Landers
Lieutenant of Police
