

Paint Colors

Approval is requested to standardize the existing warm white of the house and red front door scheme using identifiable Benjamin Moore colors (White Dove body, Simply White trim/porch, Caliente front door) so that future maintenance is consistent and easily reviewable, and to adjust only the shutter color to Essex Green HC-188, a historically grounded shutter color for 1800s New England houses.

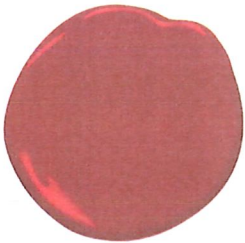

Body (siding) - White Dove OC-17 - a warm white

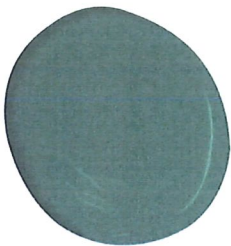

Trim (porch, windows, columns) - Simply White OC-117 – clean but still warm for subtle trim contrast.

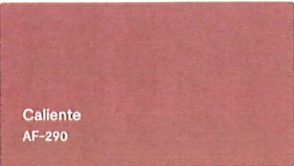

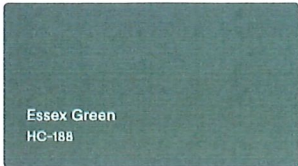

Front door red - Caliente AF-290 – richer, more saturated red

Shutters - Essex Green HC-188

Combined paint scheme for 83 Monument Street:

Simply White
OC-117

White Dove
OC-17
