

**CONCORD PUBLIC WORKS
WATER AND SEWER DIVISION
Irrigation System Registration**

All irrigation systems connected (in-ground, drip, micro, etc) to the Town of Concord municipal water supply must be registered with the Water Division prior to installation and are subject to a connection fee. Connection fees are assessed for high-intensity non-essential residential water use.

Customer (Property Owner) Information

Service Address: _____ Name: _____
 Mailing Address (if different): _____ Town: _____ State: _____ Zip: _____
 Telephone: _____ work / home / cell (circle one)
 Email Address: _____

System Information

Controller

Is the controller, also known as a timer or clock, capable of being programmed to automatically limit operation to prescribed schedules and restrictions, including days of the week and times of day?

Yes No Don't Know (circle one)

Manufacturer: _____ Model: _____

Save 20-30% on irrigation water use by installing a smart watering wi-fi based irrigation controller.

How is the controller typically set to operate the system during irrigation season? Please describe the schedule of days, times, and zones as best as you can.

Rain Sensor

Is the irrigation system equipped with a rain sensing device that monitors rainfall and causes the system to remain off during or after it rains if sufficient rainfall is measured?

Yes No Don't Know (circle one)

Manufacturer: _____ Model: _____

Is the rain sensor working properly?

Yes No Don't Know (circle one)

For Administrative Purposes
